1. With the screws loosened but not removed, place the mount onto the handguard section desired. Drop the screws into the large end of the KeyMod™ slot. The foot of the KeyMod™ screw will be facing the small end of the KeyMod™ slot.
2. Slide the mount forward until it stops. Press down on the mount to ensure it is flush to the handguard and tighten down the screws.

#### Installation Tips

- When installing multiple KeyMod™ accessories, start with the forward most accessory.
- Note- the KM-QDF will not install into the forward most position.
